

QUALITY, ENVIRONMENTAL, HEALTH & SAFETY POLICY

To deliver the highest quality of works, through the identification of customer requirements and statutory requirements.

The management will do its utmost best to provide an accident-free workplace for all employees and interested parties as well as a sustainable green environment by ensuring the outputs of all work activities do not cause undue pollution to the society.

The Group strives to prevent environmental, health & safety hazards that are undesirable to employees, and interested parties through continual reviews and improvement of its integrated management system and, complying with the applicable regulations as required by Ministry of Manpower, relevant authorities and the clients.
