## **CSC SECURES CONTRACTS IN EXCESS OF \$50 MILLION**

**✓ ITE piling contract of \$15.4 million among \$50 million worth of jobs secured**

---

**SINGAPORE, 12 October 2010** – Mainboard-listed foundation and geotechnical engineering specialist **CSC Holdings Limited** (CSC 控股有限公司) has in the past three months secured contracts in excess of \$50 million. Included in the contract wins was the award of a \$15.4 million piling contract for the new Institute of Technical Education College Central and Headquarters at Ang Mo Kio (“ITE College Central”). The new ITE College Central is the third regional campus to be built by the Ministry of Education of Singapore and is the second ITE project to be awarded to CSC. The Group had previously installed the foundations of ITE College West, which commenced operations in July 2010.

In addition to the new ITE College Central contract, the Group has also been awarded various infrastructure, residential and industrial foundation contracts in Singapore amounting to approximately \$36 million, over the past three months. These include works for a new Sentosa Gateway Tunnel in the Sentosa-HarbourFront area, Waterfront Gold Condominium at Bedok Reservoir, Lonza’s new cell therapy manufacturing facility in Tuas, and redevelopment works for the Royal Thai Embassy at Orchard Road.

Further afield, the Group secured its second job in Thailand, for the Singapore International School in Bangkok, where foundation piles are being installed via the jack-in pile method, which is noise-free and environmentally friendly. This second contract comes hot on the heels of CSC’s initial success in completing the installation of foundation piles ahead of schedule, for the Shrewsbury International School.

In Malaysia, the Group is currently installing foundation piles for the second Penang Bridge. The Group also completed the foundation works for a solar wafer plant, which is part of the MEMC Merdeka Project within the Sama Jaya Free Industrial Zone in Kuching, Sarawak.
